Career objective

Looking for a challenging role to utilize my technical and management skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends like Web development in the IT sector.

Work experience

Assistant System Engineer

Tata Consultancy Services, Bangalore

PROJECT TITLE: ACBS Web-Inquiry

I am working on a project named Advanced Commercial Banking System Web-inquiry with group of 8-10 developers. This is an existing responsive website supported by Explorer browser only. So we are working on this to convert the application to support by all browsers out there. I recently joined this project and working simple tasks on frontend.

- Determining the structure and design of web pages.
- Have working knowledge of supporting application bug fixes.
- Creating the required markup by using HTML, CSS and JavaScript, TypeScript, Angular
